PROFESSIONAL SUMMARY:

- 2+ years of experience in Developing Web based solutions.

- Experience of working in the complete Software development life cycle(SDLC) involving design,development, Testing.

- Extensively used IDE tools such as IntelliJ,Eclipse Version Control Systems tools such as GIT.

- Working experience on Production issues, Finding Root Cause and Providing Quick Fixes/Workarounds on emergency Issues.

- Working experience on **Apache Tomcat** server**.**

- Working experience on **SQLServer** and **Oracle**.

- Extensively worked on Web services (RESTFUL API).

- Extensively worked on **Java, J2EE.**

- Good Exposure **Spring , Angular .**

- Knowledge to use tools **Log4J ,Gradle,Maven, CICD-Pipeline deployment.**

- Quick Learner and adaptive for new technologies.

- Good Communication and interpersonal skills.

EXPERIENCE PROFILE:

- Working as a Software Engineer for **Accenture Solutions Private Limited** from June 2021 to till date.

ACADEMIC PROFILE:

- Bachelor of Technology **(**B.Tech**) in Compuer Science** from **Gandhi Institute of Technology and Management(GITAM),** with an aggregate of **85%** in 2021.

- **Intermediate** from **Narayana Junior College, Tirupati** with an aggregate of **95%** in 2017.

- **S.S.C** from **Camford English high school (Chittoor)**with an aggregate of **84%** in 2015.

 TECHNICAL SKILLS:

Languages	Java
JSE Technologies	JDBC
JEE Technologies	Servlet
Web Technologies	RESTFUL Web Services
Markup Language	XML,JSON
Frameworks	Spring, Spring MVC
IDES	IntelliJ,Eclipse
Tools	Log4j, Maven ,GIT
Servers	Apache Tomcat
Operating Systems	Windows
Database	SQL Server, Oracle
UI Technologies	HTML,CSS

PROJECTS:

Project Title   : GIC-**Synergy**

Domain   : Investment Banking,

Client   : GIC(Singapore)

Technologies   : Java, J2EE,Spring,Restful Web Services,Oracle,Maven,Gradle

Team Size   : 20

Role   : Developer.

Server   : Apache Tomcat.

Database Server   : Oracle ,SQLServer.

Description: STARS

        STARS application facilitates total account portfolio rebalancing operations. In general it includes the aggregation of data from multiple sources to compute and generate asset rebalancing and currency hedging and trading signals.

        STARS also helps in Rebalancing Operations, in general, include the aggregation of data from multiple sources (eg Benchmarks, Valuations etc) to compute and generate asset rebalancing and currency hedging trading signals which are executed in the market

VRS Lokesh

JAVA Developer

Email: vrslokeshJobs@gmail.com

+91 9121642421

Roles and Responsibilities:

● Involved in all phases of **Software Development Life Cycle (SDLC)** including analysis, designing, development, and debugging of the project.

● Automated many manual task tasks with automation ideas and implementations using Batch-script and also run the Control-M jobs on daily basis to communicate to servers

● Worked with **Spring -JDBC** to store hierarchical data.

● Used **GIT** Repository.

● Involved in developing reusable WebServices using **REST**.

● Resolving the production issues reported by the Client users.

● Participated in daily Scrum meets to discuss different issues in the project.

I hereby declare that the above-furnished information is true to the best of my knowledge and belief.
